the page in question was copied on May 9, 2003. The other pages mentioned have the following dates:

Page Number	Date
2	May 9, 2003
3	May 15, 2003
5	March 11, 2001
8	November 12, 2003
10	May 15, 2003

Thus, the Office Action is citing pages of the Practice Today literature that are not prior art.

Thus, the PTO has not carried its burden of proof that the Practice Today had this feature before applicant.

If the examiner cannot come up with better prior art, he should allow the application.

We believe this amendment puts this case in condition for allowance and the same is earnestly solicited. Should the Examiner have any small matters requiring resolution, he is encouraged to telephone the undersigned for expeditious handling.

Respectfully submitted,

Howard A. MacCord, Jr.

Internet Archive Frequently Asked Questions - Microsoft Internet Explorer

http://www.archive.org/about/faqs.php#202

Section 1: General

How does the Wayback Machine work?

There is no access to files before they appear in the Wayback Machine.

How does the Wayback Machine behave with Javascript turned off?

If you have Javascript turned off, images and links will be from the live web, not from our archive of old Web files.

How did I end up on the live version of a site? or I clicked on X date, but now I am on Y date, how is that possible?

Not every date for every site archived is 100% complete. When you are surfing an incomplete archived site the Wayback Machine will grab the closest available date to the one you are in for the links that are missing. In the event that we do not have the link archived at all, the Wayback Machine will look for the link on the live web and grab it if available. Pay attention to the date code embedded in the archived url. This is the list of numbers in the middle: it translates as yyyyymmddhhmmss. For example in this url <http://web.archive.org/web/20000229123340/http://www.yahoo.com/> the date the site was crawled was Feb 29, 2000 at 12:33 and 40 seconds.

How can I add a thumbnail image to my item's details page?

First, make sure you're logged on to archive.org with the same email address you used to upload the item.

The image you upload must be named *identifier.jpg* (where *identifier* is your item's identifier name) and you must choose file format JPEG in the metadata editor.
